

CUSTOM PORTRAIT ART PRICE GUIDE

ALEXIS

INTRODUCTION

Welcome, and thank you for your interest in a custom portrait! Each piece is thoughtfully created to capture likeness, emotion, and presence through a detailed, hand-drawn process. Whether you're celebrating a special moment or creating a meaningful, one-of-a-kind gift, every portrait is made with care and intention. Pricing reflects the time, precision, and materials required to produce a high-quality, custom work. Below you'll find options based on size, medium, and complexity, so you can choose what best fits your vision.

Choosing Your Medium

Charcoal/Graphite

A high-contrast, monochromatic medium using deep blacks and smooth shading to create realistic, dimensional portraits with a soft matte finish.

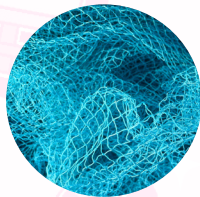

Colored Pencils

A detailed, layered medium that builds rich color and smooth gradients for realistic, vibrant portraits with a clean, refined finish.

Background Options & Pricing

Here are some sample reference images on how I would categorize them if they were in the background behind the subject I would be drawing. Check out the 'Additions & Customization' portion of the table to see the pricing.

Detailed Background

The more detailed and refined the background, the higher the cost, as it requires additional time, color work, and precision to achieve accuracy.

Moderate Background

Scenic and far distance backdrops take time to draw, and may require a smaller additional fee.

Simple Background

Backgrounds with minimal details are completely FREE of charge!
